

PCO SHOWCASES “RUBIN”, “SZAFIR” AND “KOLIBER” SYSTEMS

PCO S.A., throughout the last month, presented its offer during the IDEF defence industry expo in Turkey, the IDET defence and defence industry fair in the Czech Republic and during the Air Fair event in Bydgoszcz. The Company also took part in the XI “Modern Technologies For National Security And For The Borders” Conference and Expo, where the MU-3M “Koliber” night vision monocular was presented, among other devices.

During the IDET event which took place between 19th and 21st May in Brno, PCO S.A. presented the MU-3 “KOS” and miniaturized MU-3M “KOLIBER” night vision devices. The company also demonstrated the SCT “RUBIN” thermal-vision scope, PNL-3M “ORLIK” aviation night-vision goggles and DCM-1 “SZAFIR” daytime modular scope during the Brno event. The expo featured booths of manufacturers coming from ca. 30 countries.

During the Turkish IDEF event, the company has presented multimedia slide-shows and videos regarding the PCO’s offer. The event involved almost 500 companies who showcased their products. PCO S.A. states that the booth was really busy during the event.

The Company also took part in the XI “Modern Technologies For National Security And For The Borders” Conference and Expo, where MU-3M Koliber night vision monocular was presented, along with the DCM-1 “SZAFIR” daytime modular scope. The above event took place in Warsaw, on 14th May.

Finally, PCO also took part in the Air Fair 2015 event in Bydgoszcz, between 29th and 30th May. Within the Polska Grupa Zbrojeniowa booth, SCT “RUBIN” optical sight, SWPL “CYKLOP” flight parameters display system, PNL-3 “BIELIK” aviation night-vision goggles and miniaturized PNL-3M “ORLIK” aviation night vision goggles were all demonstrated during the event.
