

PIAP AT THE NATO EOD DEMONSTRATIONS AND TRIALS 2018

Representatives of the Polish PIAP Institute participated in the NATO EOD DEMONSTRATIONS & TRIALS 2018 in Bratislava, Slovakia.

PIAP presented its four best-selling robots: PIAP GRYF[®], PIAP FENIX[®], TRM[®] and IBIS[®], as well as Explorer inspection device. The demonstration of PIAP mobile robots did attract a great interest of the public. Especially because almost all of the robots brought to the fair participated in the dynamic show.

PIAP's EOD specialists presented the process of pyrotechnic/EOD reconnaissance with TRM[®] and PIAP GRYF[®] robots and the removal of a dangerous explosive device with the use of an IBIS[®] robot.
